QUEEN'S TEAM WINS LAURELS IN DEBATING

Women's Intercollegiate Debate First of Kind Here

STRONG SPEAKERS

"Asiatic Immigration" Topic—L. Kerr Best Speaker

The first Intercollegiate debate among women students took place on Saturday night before a record attendance of students and visitors, in the Convocation Hall at R.V.C. The subject chosen was "Resolved, that Asiatic Immigration should be excluded from Canada." Queen's, represented by Miss Mackercher and Miss Sutherland, took the affirmative side of this question, while McGill, represented by Miss Joan Foster and Miss Lorna Kerr, upheld the negative. After a very interesting and spirited debate, Queen's University proved to be winners. The debaters were very fortunate in having for their judges Dr. Helen Reid, as neutral judge, Dr. Cyrus Macmillan representing Queen's, and Dr. Leacock representing McGill.

Miss Joan Foster, president of the Delta Sigma Society, opened the meeting by welcoming the visiting team on behalf of the society. She also thanked Dr. Helen Reid, Dr. Macmillan and Dr. Leacock for their kindness in acting as judges, and also Miss Hurlbatt for her help in many matters concerning the debate. Miss Foster then handed the meeting over to the vice-president, Miss Massy-Bailey, being herself one of the debaters. The vice-president announced the subject for the debate, and called on Miss Mackercher, the leader of the affirmative, to speak.

Miss Mackercher laid great emphasis on the necessity of having national unity for national development, and stated that the presence of the Oriental in Canada is a menace to Canadian unity. To form a true nation of a variety of peoples, it is necessary to assimilate them, and in the case of the Oriental peoples and the white races this can not be done. Miss Mackercher spoke about racial prejudice and showed how it existed in the schools, chiefly of course in British Columbia, where the white people refuse to let their children mix with the Orientals. In this connection she also spoke about the churches, and trade unions, and other agencies of assimilation including inter-marriage, which, however, does not occur. Because these assimilative agencies do not work, the presence of our alien body segregated is a distinct menace, and is very likely to lead to dangerous things. For example, the conditions of the "Chinatowns" in different cities, the danger of the white race being displaced by Oriental labor, and losing control in other fields too, perhaps eventually having control over all British Columbia. For all these different reasons, said Miss Mackercher, in closing, "the policy of exclusion should be adopted, if Canada wishes to have national unity."

Miss Foster of the negative side was the next speaker. By way of introduction she said that she and her colleague had divided their material into the questions of the Japanese, the Chinese and the Hindoos. Before dealing with the first, she said: (Continued on Page 4.)

OPEN MEETING OF STUDENTS' COUNCIL

Financial Position of Daily Is Main Question for Wed.

An open meeting of the Students' Council will be held in the Union on Wednesday afternoon for the purpose of giving the undergraduates an opportunity to learn about the manner in which their affairs are being conducted. At the last meeting of the Students' Society the student made the announcement that several of the gatherings of the Students' Council would be open for all of the students of the university to attend, and this will be the first of the series.

There are several matters of importance to come up before the governing body in student affairs, and they should be especially interesting to the undergraduates as a whole. Principal among the matters slated to be brought up for discussion is the position of the "Daily." Students who do not know the exact manner in which the business end of the college paper is run will have an opportunity of learning all about it, on Wednesday. (Continued on Page 3.)

BOXING CLUB HELD BOUTS ON SATURDAY

Inter-Faculty Eliminations Held at Molson Hall

EXCITING FIGHTS

Winners to Fight This Week at Ste Anne's

The second round of the Inter-Faculty boxing tournament came off on Saturday at Molson Hall with a card of nine bouts, most of which proved fast and clever exhibitions of boxing. In spite of the free admission, there was a large attendance of fight hounds on hand, including more than a few well known members of the faculty.

The bouts were in the main well worth watching. Indeed, most of them were of a standard that would favorably compare with many of the professional bouts that have been seen in the city lately. A few of the fights, of course, were of that fast and furious heavy slugging variety, with both competitors obscured in a swirling cloud of haymakers, which always meet with such a great reception from the crowd, but these were happily in the minority.

The first fight of the afternoon was between Snow and Fullerton, of Medicine, in the 125-lb. class. Both men were scientific, clever boxers, but neither seemed to be in any too good condition, although Snow had perhaps the advantage in this respect. The two men put up a great battle for the honors, however, and the decision was a hard one to give, but when Snow was declared the winner there were no dissenting voices.

Caron and Reid of Medicine, in the 135-lb. class, gave a good exhibition. Caron took the offensive throughout, though neither man did very much in the first round, but Reid not only kept him from hitting, but gave a few good pokes now and then that made Caron lose much of his enthusiasm. Still, neither had any great advantage, but Reid landed more of his blows, and won the bout.

The next bout was in the 145-lb. class, between Montgomery and Stanfield, of Commerce. Neither man showed overmuch skill in boxing, but they made up in endeavour what they lacked in science. The first round was just one wild rush from start to finish, and it was a good thing for both men that none of the other's wild swings landed home. One of the on-lookers, however, who was standing too close to the ringside, just missed death by a matter of inches. In the next two rounds neither man had much pep left, and the two showed a great fondness for each other's embraces, but Montgomery landed more blows (Continued on Page Three)

FACULTY REPRESENTATIVE PHOTOGRAPHS

All men who have been nominated for positions as Faculty Representatives on the Students' Council are requested to hand in their photographs to the Daily office at 1 o'clock today (Monday). The photographs and platforms will appear in the Daily later in the week.

GOVERNMENT DESIRED TO GIVE FUNDS

Resolution Asking Govt. to Provide Scholarships

'VARSITY'S IDEA

Move to Bring Students from Other Lands Here

The students of the University of Toronto have drawn up a resolution regarding International Scholarships whose object will be to promote a better understanding between the countries of the world. This resolution has been forwarded to the McGill Students' Society, and will be brought up at the open meeting of the Students' Council, which is being held next Wednesday. The resolution, which is quite ambitious in scope, advocates scholarships being awarded to students of other countries, tenable in Canada, and somewhat along the lines of the famous Rhodes scholarships.

The letter regarding the resolution is here given, together with the general sense of the resolution itself.

Toronto, Ont., Nov. 28, 1922.

"The President, Students' Council—
"Dear Sir—The enclosed copy of a resolution on international scholarships is forwarded to your organization on the authority of the Students' Resolutions Committee at Toronto.

"The Committee has authorized the sending of this resolution to the student bodies of every university in Canada and it is their desire that the resolution should be placed before the student bodies of each university through their representative organizations or in any other manner that fits in with the local form of student administration. "Thus it would be greatly appreciated if you could obtain an expression of opinion upon this resolution from the student body of your university and then forward the result to the Students' Resolutions Committee at Toronto. Wherever the student body favors the idea of the resolution but wishes to make some amendments of reservations, they are requested to instruct their delegates to the National Conference of Canadian Students, concerning their wishes on the matter.

"The delegates will then present these reservations at this conference which is being held in Convocation Hall, Toronto, Dec. 28th to Jan. 2nd. At this conference the final draft of the resolution will be framed and if the student bodies are in favour it will be sent to the Dominion Government at Ottawa.

"The reason for the existence of this resolution is found in the preamble which expresses the feeling of some students that definite action ought to be taken on the part of Canada to show the practical desire of the people to promote better relationships between the countries of the world, it being taken for granted that such is the desire of the Canadian people. Since it is especially true of the other countries that students are the leaders of their governments, it has been felt by the Committee that by bringing students to Canada from other lands on a scholarship basis it would be laying the foundation of a better understanding of Canada by the future leaders of other nations. Therefore

WRESTLING BOUTS TO BE HELD TODAY

Inter-Faculty Contests Start This Afternoon at Union

The Interfaculty wrestling eliminations are slated for this afternoon at 5.15 p.m. in the Union. Some interesting bouts are to be run off, as most of the men who are to compete are well known wrestlers who have already made a name for themselves in college wrestling. Some of the men of course, are just making their debut at the game this year, but even these new hands should give good exhibitions, as they have all been training faithfully since early fall under the expert guidance of Coach Smith.

The men from Science and Medicine have so far been showing the most interest in wrestling, and ten of the bouts to be held to-day are between men from these faculties. Arts has only two representatives competing, while the other faculties have no one entered. Still it is hoped that more interest will be taken in wrestling as the season wears on, and (Continued on Page 4.)

Theologs—P.C., \$14; Wesleyans, \$16.
Total—\$444.30.

UNIVERSITY OF CAMBRIDGE.

Men of the University of Cambridge actively electioneered in a recent campaign against men who, if elected, would allow women to attend the University. The students neglected lectures and work, and it is claimed, lent their cars and motor cycles to take the electors to the polls.

OLD ST JANITOR DIES SATURDAY

Jos. Grimsdale of Chemistry Bldg.—Funeral Today

The sudden death, early Saturday morning, of Joseph Grimsdale, janitor of the Chemistry and Mining Building, in his 68th year, was a great shock to the whole staff of McGill University, professors, students and employees alike. Mr. Grimsdale, who was known intimately to many generations of students, has been connected with the department of Chemistry for over thirty years. He was assistant in turn to Dr. T. Sterry Hunt and Dr. B. J. Harrington, and when the Chemistry and Mining Building was erected in 1897, he became its resident janitor, remaining in charge of the building up to the morning of his death. He took great pride in every detail of his duties and was generally credited with having the best kept building on the campus. He was personally extremely popular with professors and students, and although somewhat of a martinet, he had the respect and confidence of his staff in the Chemistry and Mining Building. His death is an irreparable loss to the departments of Chemistry, Mining and Metallurgy. Mr. Grimsdale came to this country in 1872 from Hemel Hempstead, Hereford.

MONTREAL, MONDAY, DECEMBER 4, 1922

"A TALE OF TWO CITIES"

In the city of Kingston at the present time there are two election campaigns in progress; the annual elections for the town council are taking place while the students at Queen's are also about to elect their representatives to their Alma Mater Society. To the visitors in the city for the championship football game last Saturday there was only one of the campaigns brought forcefully to their attention, however, and that was the preparations for election day at the university.

During the interval between the periods at the football game there was a mass of propaganda carried on in favour of the various candidates for the student offices. Banners were carried around, cheers were given for the nominees, and the whole place was a hotbed of political meetings staged by campaign managers to advertise the political platforms for their favourites. Down on the campus the scene was somewhat similar. All about the place were striking signs placing before the students in a forceful manner the reasons why the various men should be elected and calling on all of the undergraduates to vote.

Here at McGill elections for the Students' Council are also to take place but there is no feverish preparation for the events which will occur next Friday. The general attitude of the students seems to be that it would be a good idea to go down to the Union and vote, if they have a little time during which there is nothing else to do, and, if they do not know the candidates for office, a cross beside the first name on the list will sufficiently signify their interest in student affairs.

This attitude must not be allowed to continue. It is the duty of the candidates themselves and the men who have been active in presenting their nominations to see that nothing is left undone to make themselves known and to give the undergraduates an opportunity to learn just what they intend to accomplish if they are elected. The proper handling of the finances and other business of the Students' Society are matters of the greatest import to every man in the university and it is essential that they should see that only capable men are sent in to the executive body. It is not the reputation for good-fellowship or the athletic record of a man that can be made the sole basis in determining whether or not he should be elected. These points are in a candidate's favour, of course, but the all important facts are those concerning the business ability and initiative of the man coupled with his determination to do his part in carrying on the business of the Society.

The matters upon which the men will be asked to decide if they are successful in their aspirations for office are no unimportant ones. They involve the expenditure of many thousands of dollars in such a careful manner that even the apparently insignificant outlays are closely scrutinized. The present condition of student finances calls for an administration of the most rigid economy, at the same time demanding that the activities of the Society shall not be curtailed unless absolutely necessary. All of the matters of student policy will also be in the hands of the men who are chosen as the faculty representatives and they must be of the sane, and yet progressive type.

A proper choice of the Council members cannot be made if the present indifference lasts until the end of the week. Through the medium of the news columns of the paper we are making every effort to give the undergraduates an opportunity to differentiate between the candidates, but the newspaper announcements should only be one part of the general campaign. The plan adopted by one of the parties in the last Mock Parliament is worthy of consideration. On that occasion the supporters of the party went about the Campus giving "stump" speeches and they proved to be very successful. A similar idea, if it were adopted by the campaign managers for the various candidates, would serve to add interest to the elections and be very useful in making known the programmes for the coming year.

There are many ways in which the elections can be brought to the attention of the students but the initiative rests largely with small groups of individuals. The Undergraduate societies can do their part in calling meetings at which the candidates can speak and the classes are also in a position to add to the general interest. Whatever is done must be done quickly. The present attitude must not be allowed to grow upon the students.

A WORTHY MOTIVE

Much is to be said in favour of the plan submitted in this issue, as received from the University of Toronto, for a genuine effort being made by the universities of Canada to promote the cultivation of an international outlook among the students by the establishment of scholarships by this country in foreign spheres, as also by means being taken to stimulate more Canadian students to journey abroad. It is evident that relations between this and other states can not be better brought to a satisfactory basis, than by instilling within those soon to assume the roles of citizens a comprehension of the spirit, ideals and habits of people other than their own.

Another significant feature of the programme is the presentation to the Dominion Government of the collegians' sentiments which should serve to bring home to our legislators the impression that the colleges are evincing an interest in national affairs and international connections, and, furthermore, that they are capable of exercising a real and permanent influence for the welfare of our country. Let us hope that the proposition will receive the hearty endorsement of the student body; more important still that the merits of the situation will be adequately put before those in a position to grant the demands of the sponsors of the scheme.

Queen's are again to be congratulated. To step from an obscure place in last year's Intercollegiate standing to that of Dominion champions is a feat of significance.

NOTICES

ATHLETIC ASSOCIATION.

A meeting of the Athletic Association will be held in the Union to-day at 5 p.m.

C. D. FRASER,
Secretary.

ARTS '26 PICTURE.

The picture may be seen at the janitor's office. Those desiring a copy should write their names in the book provided for the purpose.

GYM. CLUB.

The gym. club will practice at six in the High School Gymnasium on Mondays, Wednesdays and Fridays.

R. V. C. MUSIC CLUB.

There will be a meeting of the newly-formed R.V.C. Music Club at 1 o'clock this afternoon in the Common Room. All those interested are requested to be present, as the election of officers will take place then. There are also other important matters to discuss. Monday, at 1 p.m. in the Common Room.

CLASS HOCKEY.

Meeting of managers of Class teams in the Grill Room, the Union, at 5 o'clock this afternoon. Managers report their names and telephones to G. B. Puddicombe, Up. 8633, immediately.

ANNUAL NOTICES

Subscriptions.

Class presidents have subscription lists for the 1924 Annual. The attention of the students is drawn to the fact that no books will be published except those actually subscribed for.

Write-ups.

Class and club articles for the Annual must be handed to the Biography Editor, your Faculty representative, a member of the Annual Board, or left at the Hall Porter's desk, Union, without delay.

Photographs.

Individuals, Clubs and Societies who wish their photographs to appear in the Annual will have to telephone Mr. Burroughs at St. Louis 5096, and make a special appointment. Because of the Christmas rush at the photographers, pictures must be taken immediately.

Proofs.

The photographers report that several proofs, chiefly of group pictures, have not yet been returned. Some of these were delivered by the photographers as long as two weeks ago. Will the groups kindly see that all proofs are returned without further delay.

The following is a revised list of headings to be published in the 1924 Annual, both humorous and serious: Arts, Arts Juniors, Commerce, Commerce Juniors, Medicine, Medicine Juniors, Science, Science Juniors, Law, Law Juniors, Dentistry, Dentistry Juniors, R.V.C., R.V.C. Juniors, Music, Theology, M.S.P.E., Student Organizations, McGill Daily, Athletics, Mock Parliament, Fraternities, and "The End."

Although a number of the above designs have been promised, several still remain to be done, and it will be noticed that additional designs have been called for in the last few days. Those willing to undertake the design of one or more of the above headings, are urged to see the Art Editor, P. R. Wilson, Architectural Dept., Engineering Bldg., before starting work, and as soon as possible. One copy of the 1924 Annual will be awarded to every artist whose work appears in the publication.

NOTICE.

Gouzopolis, of Arts I., is requested to call to see C. D. Fraser, at the Secretary's Office, McGill Union, to-day at 1.30.

GYM. CLUB.

The members of the above executive are asked to be at Notman's at 1.15 sharp, to-day, to have the group picture taken for the Annual.

C.O.T.C. "B" CO.

There will be a lecture at 5 o'clock this afternoon by Capt. Howard, on Maps, in the Old Law Building. 'A' certificate men of "B" Company please note. These lectures are voluntary.

MANDOLIN CLUB.

A practice is called for to-night, at 7.20. All members must be present, as a new popular piece will be tried out, also song books. Peate's Studio is the place.

INTERMEDIATE BASKETBALL.

The following men have been posted to the Intermediate Basketball squad, and are asked to turn out at Molson Hall to-night at 5 p.m.—

Davis, Schpitzer, Cummings, Connor, Altner, Reardin, Tanzwash, Rapp, MacDonald, Starke, Wyse, Tinkess, Chalmers, Quackenbush and Granik.

JUNIOR BASKETBALL.

A practice for all men turning out for the first time, and those men not posted to the Intermediate Squad will be held at 6 o'clock to-night at Molson Hall. Junior C team in the City League is to be selected from this squad, and everyone will be given an equal chance to make the team.

1924 Annual Today

McGILL C.O.T.C., ANNUAL PHOTOGRAPH.

The annual group of all officers and N.C.O.'s (Lance-corporals and upwards), will be taken to-night, Monday, at 8.20 p.m., at Notman's Studio.

SWIMMERS AND WATER POLO.

There will be a water polo practice this evening at the Rubenstein Bath, at 5.15. All senior and intermediate men are to turn out, as the practice is an important one.

NOTICE.

The regular monthly meeting of the Western Club will be held at the Union on Tuesday, Dec. 5, at 6.30 p.m., when dinner will be served. A prominent Westerner will be the guest of the evening, and will deliver a special address of great interest. All Westerners are specially urged to attend.

ARTS '26 BASEBALL.

All men trying for Arts '26 baseball team, or who would wish to try out, are requested to come to the practice to-morrow at 2 p.m. in Molson Hall.

DAILY FILES

Dec. 4, 1914—

Principal Peterson addressed the Canadian Club at Kingston on "The Origin and Causes of the War."

The Arts Society of Queen's University held their sixth annual dinner in Grant Hall. Three hundred students attended, and every member of the staff was present. It was a pleasant function.

The Historical Club held its meeting at the residence of Dr. Colby. Many interesting papers were read and refreshments served.

Dec. 4, 1916—

About 14 of the members of the Railway and Mechanical Club visited the Government Forest Products Laboratories.

Four graduates of McGill fell in battle of Somme.

Fried Ontario Trout, Tomato Sauce, Broiled White Fish, Butter Sauce, composed the "Fifth" items on the Menu at the Union.

Dec. 4, 1917—

The Bible Study Classes held a supper in Strathcona Hall.

Students of the R.V.C. engaged in knitting socks for the Red Cross were kindly notified to make the socks in each pair of the same size, as some pairs were forwarded in which the socks were not mated.

Dec. 4, 1920—

McGill won debate from Varsity team. Prof. Leacock was chairman. The speakers were congratulated. A large crowd attended. Dillon and Perrault led the McGill team to victory.

McGill defeated the M.A.A.A. in a very exciting match and won the Goulden Cup—the emblem of the Dominion Championship.

Dr. Simpson lectured on War Gases before Chemical Society.

Mlle. Guerin, chief directress of the Franco-Canadian Society, visited the R.V.C.

The Cosmopolitan Club held an enjoyable dinner and elected officers for

OTHER CAMPUSES

RUTGERS UNIVERSITY.

The football coach of Rutgers has invented a "crow's nest," from which all points of the gridiron are visible.

UNIVERSITY OF CHICAGO.

The freshmen of Chicago University terminated a "pep rally" by burning the green caps of their rank.

McGill students, however, will possibly remember the present drive to supply the needy with clothes before destroying theirs in this manner.

UNIVERSITY OF MICHIGAN.

The University of Michigan is at present being renovated. During the work it was found necessary to raze an old portico. This job was turned over to the class of '24. The roof of the structure was successfully attacked with pinch bars, pikes, and sledge hammers. A series of brick columns, however, resisted all efforts until a steam shovel was obtained. The buckets of the shovel were connected to the columns by a chain and accomplished the destruction of the pillar.

DALHOUSIE UNIVERSITY.

The new Senate ruling requiring 100 per cent attendance resulted in a mass meeting of protest held by the students. Early in the meeting it was found necessary to call the students to order as feeling was running high. Immediate action was demanded, and a letter expressing the sentiments of the gathering was prepared for presentation to the proper authorities.

However, with a good college doctor his difficulty should be avoided.

UNIVERSITY OF CHICAGO.

In an interview given by a dean of the University of Chicago he states that students are not required to await tardy professors for any specific number of minutes. Continuing, he states that professors are expected to be punctual in arriving at the classroom. "On the other hand, students are expected to be courteous to wait for professors just as long as they would for anyone with whom they had a business or social appointment."

SECOND SERIES IN R.V.C. BASKETBALL

The second series of R. V. C. Inter-class Basketball was played off in Molson Hall on Saturday afternoon, when the Seniors first team defeated the Freshman first team 70-11; the Sophomores defeated the Juniors 17-10; the Freshman second team defeated the Senior second team by a close score of 16-15.

The first game was between the second teams of the Seniors and Freshmen, while it was not a particularly fast game, both teams showed good passing, and at half time the score was 12-5 in favour of the Freshies. In the second period the Seniors scored steadily until the score stood 16-15 for the Freshies.

The first teams of the Juniors and Sophomores then competed for honors; they showed good combination and faster playing than was shown in the former game. At half time the score stood 10-2 in favor of the Sophomores. The second half was not as fast and more fouls were made. The Sophomores proved their superiority by making the final score 17-10.

The third game was played between the first teams of the Seniors and Freshmen. Miss Slack and Miss Leggett made some brilliant shots, and the Seniors scored continually. Miss Hutchison played well for the Freshmen, but unfortunately had to leave the game when she fell and injured her ankle. At half-time the score was 27-2. Although playing a losing game the Freshmen battled with spirit, making two more shots toward the close, making the final score 70-11.

What Are You Missing?

NO one can want anything until he knows of its existence. That is why ancient folk managed to live fairly contented lives without window glass, soap, automobiles, stoves, toothbrushes, telephones and so many of the things we consider the bare necessities of life.

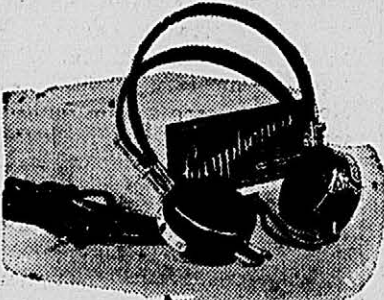

Advertising has done more than any other one thing to make this era of ours so rich in comforts and conveniences. To advertising is directly due much of the multiplication of products and services which are now at the disposal of every one.

There is no denying the fact that advertising has ironed out the mechanics of existence. It has made life easier and more pleasant by bringing to our attention countless necessities which years ago a king's ransom could not have bought.

Folks dress better, eat better, sleep better, and live better because of advertising.

You owe much to advertising---and you miss much when you fail to read it.

RAYPHONES

Price \$5.75 Complete

Rayphones have been designed to meet the exacting demands of the Marconi Wireless Telegraph Co. of Canada, Limited, for a popular priced Quality Head Set for Long Range Radio Reception. They are manufactured in one style and resistance only—to ensure the best possible results under all conditions. Weak or strong signals are alike received with maximum audibility and clearness—free from distortion—whether used in conjunction with a valve or crystal receiver. Rayphones represent a new standard of sensitiveness and are especially suitable for Multiple Reception—six or eight pairs may, with ease, be attached in series to one Receiver, without appreciable loss in signal strength. Only the highest grade materials are used in their construction. Despite the fact that Rayphones are now being manufactured on a scale hitherto unprecedented—which alone enables them to be sold at \$5.75 a set—each and every pair is scientifically tested before being shipped and is guaranteed to give satisfaction.

SPECIFICATION
Head Bands and Equipment.—Made of specially tempered steel and covered with durable cord webbing. Correctly designed to the curvature of the head, in order to ensure maximum comfort. Readily adjustable by means of a new device whereby the phones may be brought into correct position in relation to the ears and securely locked.

All metal parts are heavily nickel plated. Phones.—Electrically and mechanically balanced to secure perfect reception in each ear-piece. The strong permanent magnets are of high grade carefully hardened steel, and are designed to ensure correct spacing with respect to the diaphragms, which are of proper thickness and resilience.

The electro-magnets are wound to a resistance of 2,000 ohms, which is the most effective for all kinds of radio reception, and permits of maximum audibility from both weak and strong signals. The ear-pieces are of a special composition and are carefully designed for comfort. Leads.—Six feet long. Made of selected copper flex of maximum electrical resistance and maximum mechanical strength, heavily insulated and covered with webbed cord. The metal terminals are nickel-plated and securely attached.

Weight.—Fourteen ounces. Place Your Order Now. Supply is limited.

Radio Week - Dec. 10 to 17 Scientific Experimenter Limited. (AUTHORIZED MARCONI AGENTS) MONTREAL

QUEENS ARE CHAMPIONS OF CANADA

Senior Rugby Honours Go to College Team

CLEAN-CUT WIN

Edmonton Team Unable to Cope with End Runs

For the first time since 1893 Queen's captured the Senior Rugby championship of Canada. Coming up from the cellar position in the Intercollegiate League to the championship in a year. After having to play an extra game to get the college honour, scoring a win by a single point from Argos. The tri-coloured team won the final contest in a clean-cut manner that left no doubt but that the best team won.

For almost three periods the game was an even fight. Queens were slow on getting away and lacked their spirit which made them victor over Toronto and Argos. When they did have a break in luck, however, they swept their opponents before them and scored in a clean-cut manner.

Queen's won the toss and Shieman kicked off against a very light wind.

Leadley returned the kick to Elks' 30-yard line, where Dorman was downed. McAllister returned. Fraser got first yards through centre. On next down Edmonton made no gain. Fraser kicked into touch on his 4-yard line. On Queen's first down they lost the ball. Dorman plunged for five yards and Palmer followed for seven more. Dorman completed the distance. Palmer failed to gain through centre, and on next down McAllister got five yards, but lost for interference. Fraser kicked to Leadley the ball bouncing in front of him. Batstone recovered on his ten-yard line. Leadley kicked to Fraser, who ran back 15 yards. On the next down Fraser kicked into touch on Queen's five-yard line. On first down Queen's gained three yards. Leadley tried an end run, but was thrown back. Leadley kicked high to Palmer, who fumbled, and Queen's recovered at centre. On Leadley's bad pass Batstone failed to gain. Mundell failed through the middle, and Leadley kicked to Fraser, who was downed on his 30-yard line, but Queen's lost for giving no yards. Reynolds replaced McKelvey. The latter has a bad ankle.

On two downs Elks failed to gain and Fraser kicked to Batstone, who was downed on 25-yard line. Reynolds crashed through for five yards, and an attempted back-field play Queen's got four yards. Carson completed the distance through centre. Harding made a grand run down the side for a gain of 35 yards to Elks' 40-yard line.

Harding had his ankle hurt. Play was delayed. On an end run Leadley passed to Batstone to Harding for a 15-yard gain. Batstone went through for 15 yards and passed to Leadley, who gained to Edmonton's 20-yard line. Batstone crashed over for five yards.

On an attempted end run Queen's lost the ball on Elks' 15-yard line. Fraser failed to gain through the centre. Yancy got five and Fraser kicked poorly into touch on his own 35-yard line.

Leadley's pass was caught by Burnett, who ran for 40 yards with no one to pass. Leadley made chase and downed him on a great tackle.

With play on Queen's 30-yard line Fraser kicked over to Batstone, who ran it out ten yards. Leadley kicked to Fraser, who was downed at centre just as quarter time came, with no score.

Queen's, 0; Edmonton, 0.

Fraser hit the line, but gained nothing. Dorman and Fraser kicked into touch on Queen's ten-yard line. Carson plunged through for ten yards, and then Batstone ran ten yards, passing to Harding, who ran 30 yards. The play was called back for a forward pass to Queen's 15-yard line. Batstone pulled an end run and passed to Harding for 12 yards. Evans then crashed through for eight more. Reynolds gained five through the centre, but on the next down Queen's fumbled and Eskimos got the ball on the Queen's 35-yard line. Dorman went through for five yards, Fraser then kicked into touch behind Queen's line after he had made a bad catch. His men were offside and the point did not count.

Leadley on the first down made ten yards. On an end run Batstone added seven. Leadley passed to Harding, who failed to gain.

Leadley then kicked high to Fraser, who was downed on his 5-yard line. On a plunge Queen's line held. Fraser then kicked to Batstone on Queen's 40-yard line. He passed to Leadley for a gain of 15 yards. Reynolds went through for 3 yards. Batstone then ran through

centre for 6 yards. Leadley booted high to Dorman, Edmonton getting possession on their 40-yard line.

On an end run Dorman failed to gain. Fraser kicked to Batstone, who ran back 5 yards to his 30-yard line. On an end run Leadley took a pass from Batstone and fed Harding for a ten yard gain. Reynolds then failed to gain and Queen's lost the ball on a fumble on their 40-yard line.

On two downs Edmonton made no gain and then tried to make yards, which they did on a line plunge. Dorman gained four, and Fraser tried a drop. The kick was low and went to the dead line for a point.

Edmonton, 1; Queen's, 0.

Muirhead hit the line for 5 yards and Evans completed the distance in the centre. Carson hit the centre, but was stopped. Harding made gain in the centre for yards. Carson again hit the centre, getting 4 yards. On an end play Queen's failed to gain and Leadley kicked into touch on Eskimos 45 yard line as the whistle blew.

Half time—Edmonton, 1; Queen's, 0.

Edmonton showed wonderful strength in the first half, and had the crowd on their toes. Their line held well, and Fraser's kicks were well timed. Queen's, however, lost many chances, especially in the first quarter, when they were in perfect position for a field goal, but passed it up for line plunging. Their fumbles lost them many fine chances. Dorman got in some good work as well as Palmer on line plunging. Batstone was the star for Queen's, with Leadley and Harding making nice runs. The line did not show up as well as in the game with Argos. Queen's were up against a tougher proposition in the first half, and all their trick plays were called into play.

Fraser, who was doing the kicking for Edmonton, received a bad cut on the hand in the first half. Leadley kicked off, the ball going into touch. The play was called back. On the second attempt Cullinan got the ball on his 30-yard line and gained five yards. A line plunge got nothing, and Fraser got five yards round the end. Fraser kicked to Leadley, who returned to Fraser on Elks' 30-yard line. Dorman failed to gain on an end run, and Fraser kicked to Leadley, who returned over the line. Fraser promptly booted on the deadline, allowing Queen's one point. Edmonton, 1; Queen's, 1.

Queen's held on two downs, and Fraser booted fifty yards to Leadley, who ran ten yards. Leadley kicked to Fraser, who was downed by Thomas on Eskimos' 30-yard line. Dorman made five in the centre, Dunn plunged through centre for four more. Fraser then kicked into touch at centre. On the first down Leadley booted 65 yards for a point.

Queen's, 2; Edmonton, 1.

Palmer was thrown back for a loss. Dorman made five through the centre. Fraser then kicked to Batstone, who ran the ball ten yards into touch on Eskimos' fifty-yard line. Mundell gained five yards, Shieman being hurt in the tackle.

Leadley's kick went wild into touch on Elks' 30-yard line. Yancy cracked the line for five yards. Harding was shaken up in the tackle. Dorman completed yards through the centre. Shieman made five more in the middle. Cullinan got five more, and Dorman made yards for the second time. Queen's line was failing to hold. Fraser was thrown back on the first down, and Cullinan broke through for four yards. Fraser kicked high to Batstone, who missed it. Leadley recovered and returned from his line and Palmer added three through the centre. Fraser punted to Leadley, who made a great return to Elks' 45-yard line. Duke hit the line for five yards, and Fraser plunged for four yards more. Harding was badly hurt in the tackle, and was replaced by Burns.

Fraser kicked to Batstone, who ran it out ten yards. On an end run Batstone gained four yards and was injured, but stayed in the game. Leadley kicked to Dorman, who fumbled on his 40-yard line and Veale recovered, going through for ten yards. Day replaced Brown. Batstone hurdled the centre for four yards. Evans hit the line for five more. On the third down Batstone made yards to Elks' 6-yard line. Batstone failed to gain on a line plunge. On the next down Mundell crashed over for a try.

Leadley converted.

Queen's, 8; Edmonton, 1.

The crowd wet fairly wild when the try was made.

Shieman kicked to Leadley, who returned. Day fumbled and Queen's recovered on Elks' 40-yard line just as the period ended.

Queen's, 8; Edmonton, 1.

Carriagan was penalized for high tackling. On an end run Batstone passed to Burns for five yards gain. Leadley kicked to Day, who was downed on his 5-yard line. Fraser kicked a high one, the ball being recovered by Queen's on Elks were given the ball in centre. Cullinan for four yards, and Leadley completed yards. Evans was hurt. Rey-

nolds smashed the line for eight yards, and McLeod got three more. Carriagan came on again. On the next down Harding went around the end for a try between the posts. Leadley missed the convert. Queen's, 13; Edmonton, 1.

Shieman kicked off to Harding, who was downed on his 30-yard line. Reynolds made three yards in the centre. On a Batstone-Harding-Leadley end run, Queen's made 15 yards. Carson failed to gain in the centre. Another end run gained Queen's three yards. McLeod went through for five yards. Leadley gained two, and Evans pulled an onside kick.

Harding recovered and ran to Elks' 5-yard line, but the play was called back. Elks were given the ball at centre. Cullinan ran across the field, but did not gain. On the next down Fraser placed an onside kick.

Leadley returned to Dorman on Elks' 40-yard line. Brunson was hurt, but kept on. Dorman was knocked out, but stayed in the game. Elks made yards on the second down. Fraser was thrown back for a loss. Fraser seemed to be away, but was pulled down. He then kicked to Leadley, who was cornered, but passed to Harding, who returned to centre. Dorman got 5 yards through the middle. Lewis was hurt, but stayed in the game. Dorman fumbled, but recovered and failed to gain. Queen's got the ball on their own 40-yard line. Reynolds hit the middle for ten yards. Leadley wiggled through the centre for six yards. Batstone was away when he slipped. On an end run Harding made yards.

On first Queen's failed to gain. Queen's, fumbled on the next down, and Shieman recovered, getting yards. Dorman plunged for 4 yards and failed to gain on the next down. Fraser tried an onside kick, the ball going into touch on Queen's 40-yard line. Johnson replaced Mundell. On two downs Queen's failed to gain and Leadley kicked to Dorman on Elks 15-yard line. Dorman got 5 yards. Dorman then broke through for yards just as the game ended.

Queen's, 13; Edmonton, 1.

The line-up—

DINNER FOR WESTERN CLUB TUESDAY NIGHT

The Westerners at McGill are to be offered an unusual programme on Tuesday evening, when they are to have the privilege of hearing Dr. J. L. Todd speak on his European experience. Dr. Todd is to speak at the informal dinner of the Club, which is to be held in the Union on Tuesday night, at 6.30. The membership tickets will be on sale, and may be purchased from members of the executive of the club. Non-members of the club will be able to secure tickets on Tuesday evening at the Union. Holders of membership tickets will be admitted to the dinner free of charge.

The tickets for the Maritime-Western Clubs dance will be available to-day, and can be secured from the executive of either club. These tickets may also be purchased from a member of the clubs, who will be at the Union between five and six every evening.

The Western Club hopes to hold several more social functions, and the men who are eligible for membership should secure their tickets at once.

GOVERNMENT DESIRED TO GIVE FUNDS.

(Continued from Page 1.)

The Resolutions Committee feel it worth while to ask your student body to take action.

"Trusting that this matter will receive your earliest attention and hoping for a reply in the near future, I am,

Yours sincerely,

G. F. BANNERMAN,

Sec. Students Resolutions Committee, Hart House, University of Toronto.

SCHOLARSHIPS RESOLUTION

"Inasmuch as the Dominion of Canada is a member of the League of Nations which has been founded on a basis exclusive of race and religion, we, the students of the Universities of Canada, with a view to promoting the ideals of that League by bringing Canada into closer contact through intellectual activities with the nations of

the world, and in the belief that only through the development of a mutual understanding between races and nations can war be eliminated as an agent of settling international disputes, go on record, through our representative organizations as in favour of the forwarding of a resolution to His Majesty's Government of the Dominion of Canada requesting:

"That the Government of the Dominion of Canada set aside annually a sum of money sufficient for the purpose of awarding scholarships to the countries and in the manner as hereinafter set forth:

"(1)—Twenty-two scholarships to be awarded to graduates of the universities of Canada for the purpose of pursuing post-graduate studies at any university in any country chosen by the students elected to these scholarships.

"(a)—The distribution of these scholarships as between universities to be based upon the enrolment of students in the universities of Canada.

"(2)—Fifteen scholarships to be awarded among the members of the British Empire excluding Canada, not more than two scholarships to be awarded at any one time to any one British Dominion or colony except that five be awarded annually to India.

"(3)—Sixty-four scholarships to be awarded on the following basis: South America, five; China, five; Japan, five; Russia, five; Austria, three; Czechoslovakia, three; Spain, two; Italy, three; Bulgaria, two; Roumania, two; Turkey, two; Greece, two; Portugal, one; France, five; Germany, five; Holland, three; Denmark, three; Norway and Sweden, four; Finland, two; Poland, two."

The second clause of the resolution deals in detail with the final conditions of the scholarships. The scholarships are to be awarded for a period of two years, with a value of \$1,500, plus transportation to and from the country to which the scholarship is awarded.

The third clause defines the conditions of eligibility for a scholarship. The students eligible will have to be graduates of some recognized university, which grants degrees of the same standard as those of recognized Canadian universities, and must not be over twenty-one years of age.

The next clause provides for the appointment of a board for the purpose of allocating the scholarships to the different countries, and with the power to decide which university in Canada the students elected to the scholarships shall attend. This will be decided according to the course desired and the academic standing of the student.

The fifth and final clause proposes to grant exemption from the usual head tax to students coming to Canada under these scholarships from China.

ENGLISH RUGBY TEAM VISIT MONTREAL

At the Windsor Hotel on Saturday night the members of the McGill English Rugby team were the guests of the Montreal club on the occasion of their annual dinner.

The chief incident of the evening was the presentation by A. D. McTier of a challenge cup to the Montreal club, emblematic of the championship of Eastern Canada, to which they were entitled by defeating McGill a month ago.

Their right to it would have been challenged by the Maritimers had there been any prospect of covering the expenses of the journey, but as it was popular support in Halifax enabled Montreal to send a team thither, with some aid from McGill.

Mr. McTier gave as his chief reason for supporting the English rugby code, the fact that it was played everywhere in the British Empire except in Canada and indicative of imperial unity.

Professor Mathews, president of the Quebec Rugby Football Union, pointed out the difficulties of giving an adequate exhibition of the game considering the small number of its supporters, but that after all the game should be and was played for its intrinsic value, and that by constant practice only a high standard of play could be achieved.

Captain Cooper, in thanking the club on the behalf of McGill for their hospitality, said that 'Varsity was entering a team next year so that the monotony of a two-team league would be broken.

Mr. V. Fosbery in a short speech stated that if ever the English game were to become a national institution it would have to be through the agency of the schools; but as a place on a college team is the ambition of all school boys, and incidentally that half the McGill Intercollegiate team consisted of L.C.C. boys two years ago, the Canadian code would be employed at school as long as it was the major sport at college.

OPEN MEETING OF STUDENTS' COUNCIL

(Continued from Page 1.)

nesday and they will have a much better idea of the difficulty met by the body of volunteers who direct its activities. The financial state and advertising accounts of the paper will be the main topic when the question of the college publication is brought up.

The plans suggested whereby the government would be urged to give scholarships to students in other countries so that they might do post-graduate work in Canada and thereby assist in creating a better understanding between the nations. The suggested plan will be

BOXING CLUB HELD BOUTS SATURDAY.

(Continued from Page 1.)

and gained the decision.

The bout between Sherwin and McKenna of Medicine in the 118-lb. class was a good one, and the two men made good use of what they had learned about boxing. McKenna forced the fighting for the first two rounds, but showed rather poor condition, and slowed up considerably in the third. In this round Sherwin put up such a nice exhibition that the bout had to go an extra minute, in which McKenna lost out.

The fight between Merritt and Hunter of Science, in the 135-lb. class, was perhaps the best bout of the day. Both men gave good exhibitions of hard fighting, but Merritt showed a convincing superiority over his opponent, who was floored several times and at last took the count in the second round.

The next fight was between Neroutsos and Dewis, in the 145-lb. class. Dewis did his best, but failed to have much effect on Neroutsos, who was landing most of his blows at will. The fight was stopped in the third round.

In the 158-lb. class, Marshall met Cooke of Science. This was a good, fast bout. Each man showed a good knowledge of the game, and both used his skill to advantage, and hit hard and often. Marshall, however, was a little too much for Cooke to handle, for though the latter at first took the offensive, he seemed unable to make his blows tell, and Marshall then began to force the fighting, after Cook had worn himself out, and finished a winner.

Another bout in the 145-lb. class followed, between Champion and Plant of Science. The two were in fine condition, and there was not a great deal to choose between the two. Champion was the aggressor all through the bout, although Plant was perhaps the more skillful boxer of the two. However, Plant did very little of the fighting, as he did rather too much covering up, and was not aggressive enough, and Champion was awarded the decision.

The last bout, between Newball and Dewar, of Arts, in the 135-lb. class, was rather a frost. Almost the very first blow that Dewar aimed landed with a smack on Newball's jaw, and he went down for the count of four, though he rose to one knee before the count was finished; he seemed to have neither the energy nor the desire to rise further, and was counted out.

Most of Saturday's winners will take part in some bouts at a smoker at St. Anne's early in the week, where it will be decided who is to continue to the final round of eliminations. The quality of the bouts so far in the preliminaries gives good prospects for some great battles in the Inter-Faculty finals which are due to come off in about another two weeks.

The regular boxing classes at Molson Hall every Tuesday and Thursday afternoon will still be continued, and every man in college who has any skill with the gloves is urged to turn out and show what he can do. Even if a man has no intention of entering for the championships, the experience to be had at the weekly boxing classes is something that will be of use all through life. This is perhaps the last chance to enter the classes and become proficient before the end of the year.

brought forward and any amendments suggested will be voted on there.

There are several other important matters to come before the Council in addition to the routine matter that has always to be cleared away at the meetings. It is expected that the open meeting will be the occasion for an unusually large attendance of students and preparations are being made to hold the meeting in the hall where there will be plenty of room for everyone to sit and follow the proceedings.

SCIENCE DINNER IS THIS EVENING

Col. Anderson to Be One of the Prominent Guests

To-night the Science Undergraduate Society meet in their annual dinner at the Venetian Gardens. The plans for the dinner have been completed and the programme promises to be most entertaining. The guest of the evening will be Col. Anderson from Ottawa. The work that Col. Anderson has done is too great to outline here, as a column of the fine print and concise statement of "Who's Who" does even little justice to the achievements of the speaker. The engineers should get words of wisdom mixed with the wit for which their guest is known.

The other guests include Dr. Eve and Dr. Rutan, two of McGill's scientists, who have made their name famous not only in Canada, but throughout the Scientific world, because of their activity in their respective studies.

The lighter side of the evening's amusement will be furnished by the management of the Venetian Gardens, whose talent is quite well known to the most studious of the plumpers. The dinner is to start at seven. Those men who have not as yet been able to secure tickets may still get them from a member of the executive.

THEOLOGS TO OPEN BASKETBALL LEAGUE

Congos and Wesleyans Start Tonight

Tonight in Molson Hall at seven o'clock budding Theologs will commence their basketball league for this season. The Congos are to open the contest with the Wesleyans.

During the past years this league has produced very interesting games. Last year the Presbyterians tied with the Congos for first place. Much interest was taken by those of the University and a record crowd was on hand to see the play-off. The game showed considerable aggressiveness and each team played with an eagerness to win. At the end of the game the Presbyterians were victorious and obtained the cup for second year in succession. This year the Congos have stated that they are out to take the championship cup from the Presbyterians. The latter team are just as insistent in claiming that they will be on top when the series closes. Both of these teams may have the surprise of their history, for it is rumored that the Wesleyan and Diocesan Colleges have received players of no mean ability.

On account of the difficulty of getting hours at Molson Hall the Presbyterians will not clash with the Congos until after the New Year. The following schedule has been drawn up for this year:

Dec. 3, 7 p.m.—Congos vs. Wesleyans; Dec. 5, 7 p.m., Presbys. vs. Diocesans; Dec. 10, 7 p.m., Presbys. vs. Wesleyans; Dec. 12, 7 p.m., Congos vs. Diocesans.

A club of eccentric young men had for one of their rules that on Tuesday evening any man who asked a question which he was unable to answer himself should pay a fine of ten dollars. One evening McLaughlin asked the following:

"Why doesn't a ground-squirrel leave any dirt around the top of his hole when he digs it?"

After some deliberation McLaughlin was called on to answer his own question.

tion. "That's easy," said he; "the squirrel starts at the bottom and digs up." "All very nice," suggested a member, "but how does he get to the bottom?" "Well," answered McLaughlin, "that is your question."—Gee Bee Record.

DAN P. GILMOUR RESIGNED POST OF CROWN PROSECUTOR

Edmund Burke, Law 1900, Noted Singer at Metropolitan Opera House—Dr. J. Archibald Malloch, Med. '13, to Join Staff at Royal Victoria Hospital—J. W. Cook, K.C., Law '97, Elected Director of Asbestos Corporation of Canada, Limited.

Following close upon the initial performance of Edward Johnson, the Canadian tenor, another Canadian singer of international note is the recipient of congratulations upon a successful debut at the Metropolitan Opera House. He is Edmund Burke, Law '00, the Montreal baritone.

Mr. Burke has had a long and distinguished operatic career, having been a member of the Royal Opera Company of Covent Garden and of the Melbourne Opera Company of Australia. He has been heard in New York a number of times in recital, but this was his first appearance with the Metropolitan forces. He sang the role of the King in "Aida." Aida was sung by Elizabeth Rethberg, and the Amneris was Sigrid Onegin. It was the debut of all three. Martinelli sang Radames.

While Mr. Burke's performance did not receive the notice from the press that was accorded Mr. John's first appearance, chiefly because the opening concert of the Oratorio Society on the same night drew the chief critics of the local papers, and the opera was left to the mercies of the "second string" writers, the Canadian baritone was given a very cordial reception by a big audience, and very favorable comment was heard concerning his performance.

The Times declared his debut was of importance to New York's future enjoyment of opera. "Mr. Burke was a slightly king of Egypt," the Times critic said, "and vocally an old friend to many who had heard the baritone on concert tours with Madame Melba. He sang with intelligence and acted with dignity."

Dr. T. Archibald Malloch, Med. '13, has returned to Montreal to engage in private practice and to join the staff of the Royal Victoria Hospital. A graduate of Queen's University, Kingston, in

QUEENS TEAM WIN LAURELS AT DEBATING

(Continued from Page 1.)

ing with the Japanese, Miss Foster spoke about the racial problem, at the basis of which is the fact that the white race has many times the quantity of land belonging to the yellow race. To prove this point, Miss Foster quoted one or two well known authorities. In speaking of racial prejudice she said that to reduce this, one should minimize racial differences rather than heighten them, which would naturally come about with the policy of exclusion. With the world getting smaller, as it is, there should be a mutual policy of live and let live between the different races.

Miss Foster then proceeded to speak about the Japanese, and proved that at present they are only a very small per cent of our population, and that there is nothing to be feared from their birth-rate. She also dwelt on the necessity there is in Japan for expansion, and also how Japan defended the Pacific coast during the war. After refuting certain arguments about Oriental labour and assimilation, Miss Foster concluded by saying that if exclusion laws are to be the policy of Canada, she is departing from the traditions of the British Empire.

Miss Sutherland of Queen's proceeded with the affirmative side of the question. She emphasized the fact of it being a question of practical politics and spoke of the political dangers which would follow if the Oriental were not excluded. "If we do not exclude them," said Miss Sutherland, "we might as well give them British Columbia now. Do we want a little Orient in the West?" She went on to speak about the difficulties of enfranchisement with regard to the Oriental and spoke of the troubles in the United States in regard to this point. Miss Sutherland maintained that exclusion would better our relations with Japan, because Japan knows the policy of exclusion, having exercised it herself in Korea, for example. She is only being asked to do what she does herself and because of this straightforward British policy she would respect her more. In speaking of the Hindoos, Miss Sutherland maintained that they, for the most part, were not anxious to come to Canada, and that those who did so were violating the laws of the Empire by coming to a self-governing dominion. This latter argument was refuted very ably by Miss Kerr, in her dealing of the Hindoo question. Miss Sutherland concluded with a very clear and concise summary of the different points by which they maintained that the policy of exclusion should be adopted by the government.

Miss Kerr, the second speaker on the negative, was then called on to speak. Before dealing with her subject, Miss Kerr very brilliantly refuted four or five arguments brought forward by the opposing team, which included such important issues as the employment question, conditions in

LECTURE ON CONDITIONS IN EUROPE

Prof. Goldenweiser Spoke to Maccabees

SOCIAL UNREST

Racial Change Only Through Psychological Methods

Yesterday afternoon the fourth series of lectures and debates of current interest to the student in affairs of culture, social and universal education, was held in the Ladies' Ordinary, Windsor Hotel, before the Maccabean Circle.

Otto Klineberg, president of the Circle, called the meeting to order. A short business meeting ensued, after which Professor Goldenweiser, the speaker of the afternoon, was introduced.

Prof. Goldenweiser occupies the unique position of being one of the first members on the staff of the new School of Social Research in New York. Born and educated in Russia, he has developed a tendency at an early age to study the social and psychological conditions of his country, and furthered his studies in Berlin.

Coming to America, he entered the University of Columbia. His publications, "Early Civilization," essays dealing on psycho-analytical problems, have appeared in the monthly review of the Atlantic, and other well known magazines.

Prof. Goldenweiser opened his lecture by speaking about the social and psychological conditions that exist in the minds of men and women in Europe and on the North American Continent to-day. Many of them are occupying positions possessed the minds of 12 and 14-year old children, as proven by the many psycho-analytical tests carried out in many centres of the world to-day. And many children were unfit to enter High School, being mentally deficient. The only means of rectifying this at the present time, he stated, were through instilling the proper methods of education into the minds of the young.

Several Asiatic countries were taking a stand on one side against the Anglo-speaking and white race. Although not a firm believer in this matter, to avoid actualities certain methods would be of great benefit.

These methods he then outlined as first, Education, and in this way changing the minds in the lives of men and women to assume the right attitude towards the abolition of racial prejudice.

SUNDAY NIGHT SING A SUCCESS

Music, Singing and Friends Attract Many

With the splendid assistance of Messrs. R. G. Simpson, L. T. Hooker and C. Summers, who provided excellent music for the occasion, the "Sing" last night showed its usual encouraging aspect. So many were anxious to sing that Hewetson, the song leader, could not satisfy all the demands. The R.V.C. girls came out in their usual numbers to welcome the men, and to help the get-together spirit that exists at all the sings. One thing, however, was remarked by the conveners, that the men are very shy and do not wish to be introduced.

It has been hinted by the Conveners that the girls are only too willing to meet all the men who come, and can do without the usual formality of introduction if necessary. This, however, is not hard to get, for the Committee are very happy to serve in that capacity, at any time, and all the time. The "Sings" have been wonderfully successful this year, but they can be made even better if everyone would remember that their primary purpose is social. Singing is only a means to an end, and no one should be frightened into thinking that the sole purpose of the "Sings" is to sing. Of course there are those who like singing and come to sing, and there are those that like coffee and come to drink, and those who like cake and come to eat, and those music fiends who come to hear the music, but these are not the students who are wanted at the "Sings." The committee earnestly request that any singers, tea-drinkers, or cake-eaters who have been in the habit of coming to the "Sings" will cease in their vain efforts to satisfy the aesthetic or the inner man, and come with a very humbled and contrite heart to the next "Sing" fully determined to get acquainted with every member of the male or female sex present.

In view of the limitation of the number of tickets to be sold it would be advisable to secure same as soon as possible. The executive have made every effort to make this dance an enjoyable function. An excellent orchestra has been obtained and refreshments of the usual high order will be served. Indications point to the probability that this will be the most successful dance ever held by the Maccabean Circle.

OLDEST JANITOR DIES SUDDENLY.

(Continued from Page One)

shire, England. He is survived by his wife, who was Miss Martha Hammond, of Mille Isles, and a daughter, his only child; also two brothers, Thomas and Henry Grimsdale.

The funeral will take place at half-past two o'clock to-day, from the large lecture room of the Chemistry Building. The service will be conducted by the Rev. I. A. Montgomery, of Knox Crescent Church. Students as well as the staff of the Departments of Chemistry Mining and Metallurgy, who are free at that hour, are requested to attend.

There will be no lectures or laboratory work in the Chemistry Building after two o'clock this afternoon.

WRESTLING BOUTS TO BE HELD TO-DAY.

(Continued from Page One)

perhaps men from these other faculties will make their appearance later on.

Men from other lines of sport have evidently discovered the usefulness of wrestling as a means of getting into condition, for the names of several prominent hockey players appear on the entry list. This may perhaps lead to more scientific methods of conducting a mix-up on the ice, and at any rate would be more interesting to the spectators, and a little easier on the players than some of the little squabbles that so seldom enliven intercollegiate contests. So far none of the dance hounds have followed the example of these men, but the next few practices may perhaps see some men in

training for the informals.

The running of the eliminations, however, will not interfere with the regular wrestling practice which will be held the same as usual to-night, at the same time and place as usual, in the Union. The men from the wrestling club who are not taking part in the bouts will thus have an opportunity to indulge in their usual work-outs, and at the same time see the beginning of the interfaculty eliminations. Any men who have not so far turned out at the wrestling practices, and who have any ability or build suitable for wrestling purposes will be welcome at the practices, as the executive are constantly on the lookout for new material, which is still needed in spite of good showing most of the men have made so far. There is still time to join up and get into condition for the college championships, but the time is short and this is probably a last opportunity.

The schedule for to-day's contest is:

Medicine.

118 lbs.—McDonald vs. Hawley.

Clement vs. Tait.

145 lbs.—McNaughton vs. Goddard.

Fisher vs. Brown, J. L.

Conn vs. Brown, H.

Science.

125 lbs.—W. F. Brown vs. T. Brown.

Mills vs. Wood.

135 lbs.—Howes vs. Oliver.

145 lbs.—Stevens vs. Donnelly.

158 lbs.—Shaw vs. Gilmour.

Arts.

158 lbs.—Vineberg vs. Martin.
